

Your diesel equipment uptime and reliability is our primary concern. We also put DuraFit DPFs through extensive testing and verification processes – ensuring they meet or exceed OEM DPF performance requirements and will continue to provide exceptional DPF longevity in your heavy-duty diesel equipment.

Although premium DuraFit OEM replacement DPFs may cost slightly more up front, they offer long-term savings. When compared with the cost of lost productivity or repeated DPF replacement, paying a little more for the enhancements inside DuraFit DPFs is low-cost insurance that pays dividends in the long-term productivity of your diesel equipment.

COMPLETE DPF SOLUTION! EACH DURAFIT™ DPF COMES WITH TWO GASKETS

APPLICATION-SPECIFIC DESIGNS WITH PROVIDED GASKETS ENSURE DIRECT REPLACEMENT OF OEM UNITS TO MINIMIZE HASSLE!

TOUGH CORDIERITE SUBSTRATE WITH ADVANCED CATALYST IMPROVES DURABILITY AND EFFICIENCY!

SUPERIOR MATTING, QUALITY STAINLESS MATERIALS AND DURABLE RETAINING RINGS HELPS PREVENT FAILURES DUE TO VIBRATION, BACK PRESSURE AND EXHAUST TEMPERATURES

PRECISION-CRAFTED FLANGES ENSURE A DURABLE SEALING SURFACE GUARDING AGAINST EXHAUST LEAKS!

STRINGENT TESTING PROCESS ENSURES PROPER DPF FUNCTION AND REDUCED BACKPRESSURE!

HIGHER-GRADE POLISHED STAINLESS STEEL CANISTERS IMPROVE DURABILITY AND RESIST CORROSION OVER OEM UNITS

DuraFit replacement DPFs ease installation and get your equipment back to work quickly. Each DPF unit is specifically designed to fit your diesel application – ensuring an exact replacement for your OEM diesel particulate filter.

THE DURAFIT DIFFERENCE

2 YEARS / UNLIMITED MILES WARRANTY

ALL MAKES DIESEL PARTICULATE FILTERS

WHAT'S MOST IMPORTANT TO YOUR BUSINESS?

AVAILABILITY? QUALITY?

ENHANCED PERFORMANCE FEATURES EXTEND SERVICE LIFE

ALL MAKES OF OEM APPLICATIONS

DuraFit™ replacement diesel particulate filters (DPFs) are available for a wide variety of 2007 and later heavy-duty diesel applications – including buses, garbage trucks, construction vehicles, long-haul trucks and more...

DuraFit DPFs are designed for durability and long service life and are available for heavy-duty diesel OEMs that include:
