

Remanufactured Integrated Fuel Systems

*Only Available Through
Authorized Stanadyne Dealers*

For John Deere 4024 and 5030 diesel engines that are used in a wide variety of applications such as tractors, skid steer loaders, air compressors, generators and more.

**Stanadyne Approved
Remanufactured Products**

Now through Authorized Stanadyne Dealers, Presenting the “only” Stanadyne Approved Remanufactured IFS Products utilizing Genuine Stanadyne Production Test Equipment and Components.

These IFS assemblies are remanufactured using Stanadyne Approved Processes and are now being offered as a lower cost alternative to new IFS assemblies.

Now Available

REMAN
INTEGRATED FUEL SYSTEMS

***As Used On John Deere
4024 and 5030 Diesel Engines***

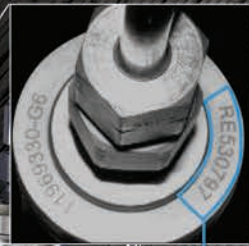

Authorized Stanadyne Service Dealers are part of the select few companies that have the tools, test equipment, and expertise to provide the best remanufactured IFS Assemblies to the aftermarket.

Utilizing only Genuine Stanadyne parts for remanufacturing, all IFS Assemblies follow Stanadyne's Approved processes and are remanufactured in an ISO 9001 certified remanufacturing facility.

By using the chart to the right, you can find the proper replacement products for you or your customer's applications.

Find your Stanadyne Dealer today by visiting www.RemanIFS.com to order your Remanufactured IFS Assemblies!
